# KHANDAKAR MUSANNA

AI-Augmented Developer · PHP & Full-Stack Web Developer

Copenhagen, Denmark · linkedin.com/in/khandakar-musanna · github.com/khandakar-musanna · musanna02@gmail.com

## PROFESSIONAL SUMMARY

Second-year BSc Computer Science student at De Montfort University (via Niels Brock, Copenhagen), specialising in AI-augmented full-stack web development. Proficient in PHP, MySQL, HTML5, CSS3, JavaScript, and MVC architecture. Uses Claude Pro, ChatGPT, and GitHub Copilot as daily development tools to architect, build, debug, and ship production-quality software efficiently. Actively seeking internships and junior developer roles in Copenhagen.

## TECHNICAL SKILLS

| | |
|---|---|
| **Languages** | PHP · JavaScript · SQL · HTML5 · CSS3 · Python |
| **Frameworks & Arch.** | MVC · OOP · REST APIs · Responsive Design |
| **Database** | MySQL · Schema Design · Foreign Keys · Normalisation |
| **Tools & Platforms** | Git · GitHub · VS Code · Cursor AI |
| **AI Tools (Daily)** | Claude Pro (Anthropic) · ChatGPT (OpenAI) · GitHub Copilot |
| **Security** | SQL Injection Prevention · XSS (htmlspecialchars) · bcrypt Hashing |
| **Accessibility** | WCAG2 · Mobile-First · Flexbox · Media Queries |

## KEY PROJECT

**Student Course Hub — Full-Stack University Web Platform** · De Montfort University *Sep 2024 – Present*

- Sole architect and developer of a database-driven platform using PHP, MySQL, HTML5, CSS3, MVC architecture — zero external frameworks.
- Designed a 6-table normalised relational MySQL database with foreign key constraints (Levels, Staff, Modules, Programmes, ProgrammeModules, InterestedStudents).
- Built student-facing interface with programme browsing, search, undergraduate/postgraduate filtering, and module-by-year views.
- Implemented secure admin panel: session-based authentication, full CRUD operations, mailing list CSV export.
- Applied security best practices: prepared statements (SQL injection), htmlspecialchars (XSS), bcrypt password hashing.
- WCAG2-accessible, mobile-first responsive CSS using Flexbox and media queries; GitHub workflow with feature branches and pull requests.
- Development approach: I directed all architectural decisions; used Claude Pro as a technical co-pilot for code review, debugging, and documentation.

## EXPERIENCE

**Sustainability Ambassador** · Niels Brock Copenhagen Business College *Sep 2024 – Present*

*Copenhagen, Denmark*

- Represent the college's sustainability initiatives to students, staff, and external stakeholders across a multicultural academic environment.
- Design and lead environmental and social sustainability campaigns; communicate complex topics accessibly to diverse audiences.
- Develop leadership and project ownership skills alongside full-time BSc Computer Science studies.

## EDUCATION

**BSc (Hons) Computer Science** · De Montfort University · via Niels Brock, Copenhagen *Sep 2024 – Jun 2027*

*Copenhagen, Denmark*

- Core modules: Web Development, Databases, Object-Oriented Programming, Software Engineering, Algorithms.

- Skills developed: PHP, MySQL, JavaScript, HTML5/CSS3, MVC Architecture, Git, GitHub, REST APIs, WCAG2, Python.

## CERTIFICATIONS & LICENCES

**Light Search and Rescue** · Bangladesh Red Crescent Society (BDRCS) · Apr 2017

**Basic First Aid** · Bangladesh Red Crescent Society (BDRCS) · Mar 2017

## LANGUAGES

**English** (Full Professional) **Bengali** (Native / Bilingual)

## VOLUNTEERING INTERESTS

Arts & Culture · Child Welfare · Disaster & Humanitarian Relief · Education · Environmental Sustainability · Science & Technology
